## Experience

### Regional 1st Runner Up and Global Nominee

NASA Space App Challenge 2023

Nov 2023

Participated in the NASA Space App Challenge, an international hackathon that finds innovative solutions to global challenges through multidisciplinary collaboration. Our team's project stood out among numerous submissions, earning us recognition as the 1st Runner Up and Global Nominee. This recognition demonstrates my ability to work effectively in a team, think creatively, and tackle complex problems.

### Galactic Problem Solver

NASA Space App Challenge 2023

Nov 2023

Achieved the distinction of being recognized as a Galactic Problem Solver within the context of the NASA Space App Challenge 2023. This title signifies my contributions to addressing real-world challenges in the space industry and highlights my dedication to finding innovative solutions on a global scale.
